**Abstract**

This contribution describes the establishment of a centre focussed on research into Internationalisation of Education. The relative paucity of empirical papers in this field, coupled with an increased interest in internationalising education and consequent introduction of much additional effort, enhances the urgency for further progress in the conduct of internationalisation interventions to be supported by empirical evidence. The Centre for Internationalisation of Education was established to help fill this important gap through the creation of a PhD programme. (HRK / Abstract übernommen)
